

MSc Business with Human Resource Management

London Campus

Level of study: Postgraduate

Mode of study: Full-time

Duration: 1 year

Response to Covid-19: Our focus is on providing a safe and welcoming learning environment and ensuring continued access to learning.

As a result of the coronavirus (Covid-19) pandemic and resulting social distancing requirements, we are intending to teach this course using a mix of on-campus and online learning activities. We continue to be guided by the Government to ensure our campus is Covid-secure. More information about our [response to Covid-19 and FAQs are available here](#).

All information is accurate at the time of sharing. Courses starting in 2021 are offered as a mix of face to face and online learning. We continue to monitor government and local authority guidance in relation to Covid-19 and we are ready and able to flex accordingly to ensure the health and safety of our students and staff. Contact time is subject to increase or decrease in line with additional restrictions imposed by the government or the University in the interest of maintaining the health and safety and wellbeing of students, staff, and visitors, potentially to a full online offer, should further restrictions be deemed necessary in future. Our online activity will be delivered through Blackboard Ultra, enabling collaboration, connection and engagement with materials and people.

Overview

Are you looking to complement your undergraduate studies or professional skillset with a business-focused Masters degree that will enhance your employability? The MSc Business with Human Resource Management will help you to develop a broad range of business skills whilst developing your understanding of specialist modules covering principles, values and approaches in human resource management (HRM), as well as organisational behaviour and practice.

Key facts

- Newcastle Business School is part of a select group of business schools worldwide, following accreditation by the Association to Advance Collegiate Schools of Business (AACSB) in business and accounting – the first in Europe to gain the double accreditation
- Upon completion of your programme, you will be eligible for the QA Professional Pathways programmes which will enable you to further develop your skills with one of the UK's largest providers of IT and project management training
- There is no requirement to have studied business or HRM at the undergraduate level.
- Also available as [MSc Business with Human Resource Management with Advanced Practice](#)

About this course:

What will I study?

Throughout the course, there's a focus on self-development and employability. The course culminates in a master's dissertation.

This programme is also available as [MSc Business with Human Resource Management with Advanced Practice](#) which includes either an internship or project.

How will I be taught and assessed?

- Teaching is delivered through lectures, seminars and workshops, totalling around **14 hours per week**.
- You're expected to engage in independent study, around **33 hours per week**
- **Assessment** is based on coursework and an exam, and our methods will include essays, reports, group work, presentations, and the Masters dissertation.
- Taught by **experienced lecturers and academics** who use their industry experience to demonstrate how theories translate into real-life situations.
- **Technology-enhanced** learning is embedded throughout the course to guide your preparation for seminars and independent research
- Benefit from **weekly academic support sessions** designed to build your ability and confidence as an academic learner
- You will be assigned a **guidance tutor** at induction who you will meet with regularly during your studies

Careers and further study

Our graduates typically go into professional and graduate management positions and, by the end of the course, you'll be well-equipped to follow them. If you decide to start up your own business, it's good to know that the combined turnover of our graduates' start-up companies is higher than that of any other UK university. Whatever you decide to do, you will have the transferable skills that employers expect from a Masters graduate from Northumbria University London.

Upon successfully completing your course, you may undertake further professional development and training through Professional Pathways programmes. These are offered to our graduates for free, from our partner, QA. [Find out more about Professional Pathways and your eligibility.](#)

Modules

All modules are core and 20 credits unless otherwise stated.

HRM in Practice

This module aims to develop your critical knowledge and understanding of how HRM can add value and enhance organisational effectiveness and sustainability, by exploring the effective integration of HRM with broader business and HR strategies, in order to facilitate the achievement of organisations strategic objectives.

You will be able to identify strategies for managing the shared and divergent interests of key stakeholders in HRM and understand how HRM can add value to individual and organisational objectives.

Organisational Behaviour and Practice

In this module you are introduced to a variety of approaches to organisational analysis, enabling you to challenge and critique, both organisational practice, and the theories, models and frameworks underpinning management, business and organisation. Mainstream views of organisational behaviour and practice are introduced, with progression to exploring alternative ways of 'seeing' organisation and organizing. This approach develops your critical thinking and draws on contemporary research to explore alternative ways of organizing.

The module introduces you to the most established paradigm perspective on organisation theory (Burrell and Morgan's (1985), and thus allows an exploration of organisational behaviour and practice through the lens of mainstream and critical organisation theory.

Strategic Management for Competitive Advantage (40 credits)

This module has been developed for those of you who have little or no prior business and management subject experience. The aim of the module is to introduce you to the main business functions – Finance, Marketing, HRM,

Operations – and show how each can contribute to the competitive advantage of a firm and hence enable the firm to achieve its strategic objectives.

Leadership and Management Development

This module engages you in personal and professional development in order that you develop and hone your team working, management and leadership skills, capabilities and attributes, and in so doing, enhance your employability. On this module, you will not only prepare for your first job after you graduate but also kick-start your commitment to life-long personal and professional learning.

In the first part of the module, you will be supported in self-analysis by a range of activities, including the completion of self-administered toolkits to demonstrate an increased self-awareness and self-understanding. A key outcome of this process is how you will be able to exploit this development in order to lead and manage, more effectively in your future careers.

The second part of the module contains activities that enable you to build on your self-analysis and explore further your strengths, weaknesses and areas for development in the context of your career development plans. This will also include the development of knowledge into the global graduate market, (including routes such as self-employment and developing your career with an existing employer) drawing upon local, national and international examples.

Research Methods and Analytics for Business Practice

This module will provide you with the essential knowledge and analytics skills needed for you to complete a high-quality Masters Dissertation. By undertaking and reflecting on practical research-based activities you will understand the process of designing and carrying out a research study, also you will engage in activities that involve an understanding of data and analysis of data. This will place you in a strong position to undertake your own Masters level research. At the end of the module, you will write a research proposal, this will be assessed and will contribute to your final mark. In the dissertation you will work under the supervision of a member of the academic staff and your proposal will also help to ensure you get the most from this relationship.

Academic Language Skills for Post-Graduate Business Students (0 credits)

The aim of this module is to support your study, language and communication skills for academic purposes in the study in your chosen discipline at the postgraduate level. The module is designed to enable you to become an advanced independent learner. The module is supported by a teaching and learning plan which outlines the formal sessions. Interactive workshops will be tailored to address some of the specific issues that you meet within your discipline. You may also be asked to complete some preparation tasks for some seminars but these will be kept to a minimum. You will be expected to identify those skills which you need within your postgraduate programme, and to develop these independently through a range of learning activities that might include extended reading and reflection.

The Newcastle Business School Masters Dissertation (60 credits)

You will design a research project of 15000 words while working under the supervision of a member of academic staff

who will give you appropriate guidance and support throughout the dissertation process whilst encouraging learner autonomy: this is your dissertation and you will have responsibility for decision making as the dissertation proceeds. You will use appropriate research methodologies and data collection methods to critically synthesise a body of knowledge relevant to the taught programme.

For successful completion of this module, you will conduct research and organise the findings into a comprehensive and explicit structure that is critically assessed and is linked to the conclusions drawn. You will demonstrate this by identifying a topic, critically selecting and applying an appropriate research methodology and data collection method(s) to your chosen research topic, demonstrating a rigorous understanding of the relevant theory and literature and showing how these link to the research method(s). You will also critically reflect on how your research contributes to the understanding of the topic area.

Fees and finance

Tuition fee 2021/22

- **UK/Home students:** £9,450
- **International students:** £16,000

Tuition fees 2022/23

- **UK/Home:** £10,206
- **International students:** £16,500

Please note that your tuition fees do not include the cost of course books that you may choose to purchase, stationery, printing and photocopying, accommodation, living expenses, travel or any other extracurricular activities. As a Northumbria University London Campus student, you will have full access to our online digital library with over 400,000 e-books and 50,000 electronic journals.

The modules you will study do not require you to purchase additional textbooks although we recommend you allow an additional £150 for the duration of your studies should you choose to purchase any additional reading materials.

What's included in your tuition fees?

Your tuition fees cover far more than your time in class with our expert academics, it covers the cost of providing you with excellent services and student experience.

- Contact time in class – typically in lectures, seminars and tutorials
- Access to facilities, including computers, on-campus Wi-Fi, printers, vending machines, quiet study spaces
- The support of our Careers & Employment Service who help you to become more employable, secure placements and run workshops
- Academic support – our ACE Team run multiple sessions on academic writing, presenting, exam techniques throughout the semester, as well as 1-2-1 appointments and drop-in sessions

- Student support services such as our Ask4Help Service. Find out more about the services available to you on our [Student Support](#) page
- Access to online resources, including 24/ 7 Library with over 400,000 e-books and 50,000 electronic journals.
