This programme is designed to recruit those students who already hold a degree, or alternatively possess the necessary industry experience to act as a foundation for higher levels of learning and the application of theory to practical situations. It caters for local and international professionals within the industry who wish to gain the necessary qualifications and theoretical awareness to enable them to advance their careers in industry. A distinctive feature of this programme is that it offers students the opportunities to interact with current industry practices and therefore enables a hands-on approach working with practitioners.
